<p><b>Legislation</b></p>	<p><b>Definition of Trade Waste and Legislation.</b></p> <p>Trade waste refers to liquid waste from any business, industry, trade or manufacturing process approved for sewer disposal other than domestic sewerage. These wastes are controlled by the Cassowary Coast Regional Council under the Water Supply (Safety and Reliability) Act 2008.</p> <p>It is an offence under the Water Supply (Safety and Reliability) Act 2008 to discharge trade waste to the sewer without a trade waste approval. Financial penalties may apply.</p>
<p><b>You can use this form to:</b></p>	<p>Update Owner and Generator detail in accordance with CCRC TWEMP Apply to discharge liquid trade waste to sewer. Apply for a change of ownership for this approval. Apply for a change of treatment process or device Apply for a change of premises for your business. Apply for a change of business/es generating trade waste trading name</p>
<p><b>Information for applicant</b></p>	<p>Council's Trade Waste Environmental Management Plan requires all <b>Trade Waste Generators</b> to complete the following trade waste approval application form before discharging trade waste to the sewer.</p> <p><b>Trade Waste Generators</b> are responsible for ensuring that the trade waste discharged to sewer meets Council requirements.</p> <p><b>Property Owners</b> are responsible for the payment of trade waste fees and charges. Any arrangement for passing on those fees and charges to a <b>Trade Waste Generators</b> (ie. Tenant) will be the responsibility of the property owner.</p> <p>A Cassowary Coast Regional Council Trade Waste Approval to Discharge is required for a property owner to carry out any of the following activities:</p> <ul style="list-style-type: none"> <li>• Discharging any liquid waste into the Council's sewer system other than domestic waste.</li> <li>• Washing up or cleaning any utensil or apparatus that is a component of the business and then discharging the waste into the Council's sewer system.</li> <li>• Conducting a commercial/industrial process that produces a contaminated liquid waste.</li> <li>• Having a pre-treatment device installed on the property that will be connected to the Council's sewer system.</li> </ul> <p>If more than one trade waste producer operates from a single property, each trade waste producer must submit an application for a trade waste approval.</p> <p>For trade waste producing businesses that lease or rent premises, the consent of the property owner or their agent is required to generate trade waste on that premise. Property owners or their agent must sign the trade waste application form.</p> <p>Trade waste approvals are not transferable. When a trade waste business changes ownership, the existing approval is terminated and the new tenant/owner must apply for a new approval where required.</p>

	If you have more than one grease arrester, you must complete the sizing for grease arrestors chart for each grease arrester. Please photocopy or print the required number of copies of the form. A plumbing and drainage clearance certificate is required before a trade waste approval will be issued.
<b>Charging Criteria</b>	Cassowary Coast Regional Council's trade waste charges are based on the volume of trade waste discharged into Cassowary Coast Regional Council's sewerage system, dollars and cents per kilolitre or part thereof.  Unless separately metered, Cassowary Coast Regional Council will determine trade waste flow as a discharge factor of the water consumption, after making a deduction for water used for W.C.'s (Domestic consumption).
